- 04:16 TRAFFIC STOP 1602230010**
Officer initiated activity at Sierra Rock, Hwy 108, Jamestown. Summary: I stopped a minivan that had a third brake light out. The vehicle's license plate came back "record not on file," and the vehicle was going approximately 10 mph below the speed limit, 45 in a 55. Driver claimed he did nothing wrong. I told him his third brake light was out. I asked if he had a personalized license plate. He said yes and he's had it for while, and he also said I probably wouldn't "be able to find it." I told him it came back as record not on file, and he told me that was between me and the DMV. I asked for his license and registration and insurance. He provided me with his license and an expired copy of the registration. He asked me to hurry because he was going to Palo Alto. Driver was "clear and valid," and a records check of the vehicle by VIN number by dispatch showed the vehicle to have current registration with that license plate number. When I gave the driver back his license and expired registration paper, I gave him a warning for the high mount brake light. The driver said I was wrong; it did not have to work, and he only needed the two brake lights. I explained to the driver that since the vehicle came factory equipped with the third brake light that it must be functional. Driver said he would check on it and let me know. When I was updating this incident, I noticed that the vehicle's REGISTRATION WAS EXPIRED, but it had a current 2016 red sticker on the plate. . Disposition: Warning Given (Used for 11-95s).
